1. Receipt is acknowledged of a prior art information disclosure statement filed on November 08, 2008 and an amendment to the claims filed on September 13, 2010 for this application filed 04/11/2007, which application is a 371 of PCT/EP04/12564 International filing date 11/05/2004, which claims priority to foreign Application GERMANY 103 51 661.1 filed on 11/05/2003.

2. Claims 1-31 remain pending in this application.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8 and new claim 29 stand rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention in view of a broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The

Art Unit: 1657

Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949).

“C) In addition, Claim 8 contains the following language which contains in lines 3 and 7 for the wording “in particular ....” that is also not acceptable.”

And **new claim 29**, line 2, contains the word “preferably” which renders the claim vague and indefinite.

4. Claims 1-7, 9-28 and 30-31 are allowed over the art of record as not teaching the process steps of producing a composite material which includes the formation of hydrogel forming a solid phase in an electrical field and employing a pore formation in the hydrogel and the composites prepared by the method.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
